Environmental Management System (EMS) Policy

Servotest Testing Systems Ltd design, test and manufacture Hydraulic test equipment from our manufacturing plant in Thorpe, Egham, Surrey, England.

Servotest Testing Systems Management are committed to protecting and continual improvement of the environment. To this end we strive to develop environmentally friendly designs, manufactured with the minimal environmental impact and operate a sustainable purchasing policy.

Through our QEMS systems we follow the below framework for establishing and reviewing environmental achievement:

- Compliance with both applicable legal and voluntary environmental requirements that effectively eliminate or are controlled to meet or exceed pollution requirements.
- Provide a planned approach to Environmental improvement through the company's Quality and Environmental Management System (QEMS) policies and procedures.
- Continually reviews environmental effects of processes and developments, and plan accordingly.
- Identifying conformity by setting Objective Targets and Action Items of affects and to implement the best available techniques and to drive improvement through the Quality Management Review.
- Management Review Objective Targets and Action Items committed to Air Quality, Carbon Footprint, Utility Source, Waste Management, and Green Tariff legislative and regulatory controls.
- Determine the competence requirements to meet compliance obligations and ensure that these responsibilities or voluntary compliances are being satisfied.
- Ensure the necessary levels of documentation are maintained throughout QEMS system, performance review in light of any new knowledge or changing legislation and audited by the organisations Internal Audit process and by External Audit verification to ensure continuing stability.
- The reduce the environmental effects from any of our products and/or services to a minimum on all future developments and maintain activities so that the environmental impact is provided for by the sourcing, use, storage, and disposal of sustainable raw materials, resources and energy.
- Our Environmental Policies, products and/or services are made available to all members of staff, with third party sourcing supply chain agreements, and to members of the public as necessary.
- Open communication makes environmental information available to all employees via notice boards and via the QEMS network. Customer and General Public information is available through the company website and/or by request.
